Schedule #1—G	eneral Information (cont.)			
County-district number or vendor ID: 093901	Amendment # (for amendments only):			
Part 3: Schedules Required for New or Amended Applications				
A - V :- II				

An X in the "New" column indicates a required schedule that must be submitted as part of any new application. The applicant must mark the "New" checkbox for each additional schedule submitted to complete the application. For amended applications, the applicant must mark the "Amended" checkbox for each schedule being submitted as part of the amendment.

Schedule	Schedule Name		Application Type		
#		New	Amended

Schedule #2—Required Attachments a	and Provisions and Assurances
County-district number or vendor ID: 093901	Amendment # (for amendments only):
Part 3: Program-Specific Provisions and Assurances	

I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.

	r certify my acceptance of and compliance with all program-specific provisions and assurances listed below.
#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates. State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will
2.	not be used for any services or activities required by state law, State Board of Education rules, or local policy.  The applicant provides assurance that the application does not contain any information that would be protected by
<b></b>	the Family Educational Rights and Privacy Act (FERPA) from general release to the public
3.	The applicant assures that funds provided under the Instructional Materials Allotment (IMA) or other funding are insufficient to purchase enough lending technology for every student who needs dedicated access to a device.
4.	students, including economically disadvantaged students and students with disabilities, who do not already have either the needed equipment or Internet service for learning at home.
5.	The applicant understands that equipment purchased with Technology Lending Program Grant funds is the property of the district or charter school.
6.	The applicant assures that infrastructure and technical support are adequate to support students' use of loaned equipment provided through the grant at its participating campus(es).
7.	The applicant assures that it will provide adequate staff to administer the program and ensure successful implementation.
8.	The applicant assures that it will account for the technology lending equipment in accordance with district policy for accounting for such equipment, including providing insurance when insurance is typically provided for such equipment. The applicant understands that the grant funds cannot be used to replace lost, stolen, or damaged equipment.
9.	The applicant assures that it will obtain a Technology Lending Agreement signed by the parents/guardian of each participating student and by the student participating in the program, including an assurance of student's mastery of the grade-appropriate Digital Citizenship strand of the Technology Applications Texas Essential Knowledge and Skills.
10.	The applicant assures that it has an approved 2013-2014 district technology plan on file with TEA. The applicant understands that if an approved 2013-2014 district technology plan is not on file with TEA at the time the applications is submitted to TEA on the application due date, the application is not eligible to be funded.
11.	The applicants assures that it is at Developing or higher Level of Progress in Teaching and Learning and in Educator Preparation in their Texas Campus School Technology and Readiness (STaR Chart) report for the 2012-2013 school year.
11.	The applicant assures that technology lending and use of electronic instructional materials are incorporated into school district or open-enrollment charter school's technology plan.
12.	The applicant assures that appropriate professional development has already been provided for teachers in the use of digital content or that appropriate professional development will be provided within the first three months of the grant period (i.e., October 1, 2014-December 31, 2014) to be prepared for the grant implementation
13.	grant period (i.e., October 1, 2014-Feburary 1, 2015), and that 100% of the funds will be expended no later than the end of the 1 <sup>st</sup> year of the grant period (i.e. August 31, 2015) to ensure full program implementation through August 31, 2016.
14.	The applicant agrees to collect and report the data for the performance measures stated in the Program Guidelines under Program Evaluation. The applicant assures it will develop appropriate systems and processes to collect and report the required data.

1						
L	Schedule #4—Request for Amendment					
	County-district number or vendor ID: 093901	Amendment # (for amendments only):				
	Part 1: Submitting an Amendment					

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail **or** by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Division of Grants Administration, Texas Education Agency, 1701 N. Congress Ave., Austin TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-7915.

The last day to submit an amendment to TEA is listed on the <u>TEA Grant Opportunities</u> page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

## Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend" guidance posted in the Amendments section of the Division of Grants Administration Grant Management Resources page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

# Schedule #5—Program Executive Summary

County-district number or vendor ID: 093901

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial. Anderson-Shiro values community, relationships, opportunities and self-motivated learning. Our Vision is "We strive to cultivate a learning community that fosters innovation, appreciates individualism, and embraces creativity to inspire our students to take ownership of their future." As a member of the Texas High Performance School Consortium and in the midst of fulfilling the goals of our second year of the Teacher Incentive Fund Grant, ASCISD's Technology/Teaching and Learning Departments are committed to providing an environment that cultivates authentic student learning and skills needed for real-world applications. Our district relies heavily on utilizing digital tools in each and every classroom to bring these skills to real-life application.

Teachers at Anderson-Shiro have been receiving professional development and will continue to be trained in utilizing digital tools and instructional materials in their classrooms, on a daily basis. During the 2014-2015 school year, ASCISD will begin implementing the Engage Learning Model (ELM) which moves classrooms from a teaching to learning platform. This model necessitates the seamless application of technology in order to foster engaging and authentic learning experiences for students that allows students the opportunity to master standards and 21st Century skills through the incorporation of digital learning. Based on student data, staff and student surveys, and data from our District Needs Assessment we are proposing to implement an approximate 3:1 device ratio at grade levels 5-8. We feel that having classroom dedicated devices at these grade levels would be most beneficial in ensuring the success of these students, as their classroom teachers work to implement the Engage Learning Model. Collaboration is at the heart of 21st Century skills, therefore this ratio will align well with the Project Based Learning strategies of the ELM model. Students will also have the option of checking out Chromebooks and wi-fi devices at the end of the day in order to give every student the option of continuing their learning experience after school, regardless of whether they own a device or have access to Internet at home. By making devices and Internet access available to students after school hours, we are working to level the playing field in our small rural community to give students those "hard and soft skills" to enable them to become college and career ready.

After discussions with teachers and students, we decided that Chromebooks were the best device option for our district. After reading reviews, and discussions with other tech leaders around the state, ASCISD plans to purchase 120 Dell Chromebooks, with the management console and protective cases, and 15 AT&T Unite Mi-Fi devices. Our district's infrastructure is ready to handle the wireless capacity of the addition of more devices. Each classroom in our district is equipped with a dedicated ProCurve MultiService Access point and has access to a 50 MB Internet connection. This connection provides ample bandwidth for our district, however ASCISD is continuously looking ahead for options to continue to increase this bandwidth in order to meet the needs of all staff and students.

#### Schedule #6—Program Budget Summary County-district number or vendor ID: 093901 Amendment # (for amendments only): Program authority: General Appropriations Act, Article III, Rider 8, 83rd Texas Legislature; Texas Education Code, Chapter 31, Section 31.021(f) and Chapter 32 Grant period: October 1, 2014, to August 31, 2016 Fund code: 410 **Budget Summary** Class/ Total Program Admin Schedule # Title Object Budgeted Cost Cost Code Cost Professional and Contracted Schedule #8 6200 \$13676 \$ \$13676 Services (6200) Schedule #9 Supplies and Materials (6300) 6300 \$41221 \$ \$41221 Schedule #10 Other Operating Costs (6400) 6400 \$ \$ \$ 6600/ Schedule #11 Capital Outlay (6600/15XX) \$ \$ \$ 15XX Total direct costs: \$54897 \$ \$54897 Percentage% indirect costs (see note): N/A \$ \$ Grand total of budgeted costs (add all entries in each column): \$54897 \$ \$54897 Administrative Cost Calculation Enter the total grant amount requested: \$ Percentage limit on administrative costs established for the program (15%): × .15 Multiply and round down to the nearest whole dollar. Enter the result.

NOTE: Indirect costs are calculated and reimbursed based on actual expenditures when reported in the expenditure reporting system, regardless of the amount budgeted and approved in the grant application. If indirect costs are claimed, they are part of the total grant award amount. They are not in addition to the grant award amount.

This is the maximum amount allowable for administrative costs, including indirect costs:

Indirect costs are not required to be budgeted in the grant application in order to be charged to the grant. Do not submit an amendment solely for the purpose of budgeting indirect costs.

#### Schedule #13-Needs Assessment

County-district number or vendor ID: 093901

Amendment # (for amendments only):

Part 1: Process Description. A needs assessment is a systematic process for identifying and prioritizing needs, with "need" defined as the difference between current achievement and desired or required accomplishment. Describe your needs assessment process, including a description of how needs are prioritized. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Anderson-Shiro CISD is comprised of two campuses. The Elementary campus houses grades PK-5 and the Jr/Sr High campus houses grades 6-12. Two years ago, our district purchased a cart of iPad 2's for the Jr/Sr High and a cart of iPod touches for the Elementary campus. Elementary teachers were given two iPads per classroom and all teachers had the opportunity to "earn" an iPad for their classroom based on their attendance at after school technology trainings as well as their agreement to present at various after school trainings. We also piloted 12 Chromebooks and enabled teachers to allow students to use their personal devices in their classroom, for educational purposes. At the end of 2012-2013, we polled students and teachers alike and asked them which devices they preferred using in their classroom. Although the lower levels preferred the iPads for small group activities, the higher grade levels preferred Chromebooks. Students enjoyed bringing their own devices, but teachers had difficulty designing lessons around students' various personal technology, so the students' technology became a useful resource, but not totally dependable. Student's ability to access digital materials at home is sometimes difficult because of the rural nature of our community, where internet access at home is either unavailable or too costly. In addition, transportation issues make it difficult to remain at school after hours to work on assignments. It has also proven difficult for students, in our large bus population, to remain after school to work on assignments. These factors have made the implementation of a flipped classroom difficult.

For the 2013-2014 school year, the district purchased 50 Chromebooks (2 carts) for the Elementary campus and 100 Chromebooks (4 carts) for the Jr/Sr High Campus. This addition of Chromebooks has helped to ensure there is more technology accessible across the district. As students and teachers alike are eager to use technology in their classes, the Chromebook carts remain checked out most of the time. Teachers become frustrated when they need to use them and they are checked out. In a needs assessment survey, teachers cited the number one reason they do not use technology in their classroom is because it is difficult to reserve Chromebooks when they need them. If they had dedicated devices assigned to them year-round, they would be more willing to incorporate them into daily lessons.

After studying past testing data, talking with teachers, campus and district administrators and meeting with the district site-based committee, it was decided that the Tech Lending Grant would best serve our 5th-8th graders. This current 4th - 7th graders are our lowest performing age group. By targeting next year's 5th-8th graders, we will be providing these students with dedicated technology to increase engagement, provide opportunities for collaboration and to foster creative and critical thinking. These 5th - 8th grade teachers have also unanimously voted that they are interested in utilizing the Engage Learning Model in their classroom next year. These technology devices will be instrumental in ensuring students and teachers are successful in this exciting new endeavor. Dedicated technology devices will allow students to have on demand access to technology.

Our current lending program, consists of a handful of older model macbook laptops. These provide assistance to students who need to complete an assignment at home, but we do not have enough to consider it a true resource upon which students can depend. We also do not have any way to send home Internet access if students do not have Internet at home or close to them. With the lending part of the grant program, students will be able to continue their connectivity to digital resources at home.

Every Spring, ASCISD conducts student surveys as part of our annual district-wide needs assessment process. It was determined that approximately 30% of these students do not have access to equipment and Internet at home. In order to decrease the digital divide in our student population, ASCISD drastically needs a lending program in place that will allow students to have access to technology outside of their normal school day, when needed.

## Schedule #13—Needs Assessment (cont.)

County-district number or vendor ID: 093901 Amendment # (for amendments only):

Part 2: Alignment with Grant Goals and Objectives. List your top five needs, in rank order of assigned priority. Describe how those needs would be effectively addressed by implementation of this grant program. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

tos	space provided, front side only. Use Arial font, no smaller than 10 point.					
#	Identified Need	How Implemented Grant Program Would Address				
1.	To foster communication, collaboration, creative and critical thinking strategies among students.	Through the use of technology in the classroom, students will learn to communicate and collaborate through social media and collaborative opportunities such as Google Apps. By using technology, students will prepare themselves for college and career goals by learning how to create content and share their creations and ideas with the use of technology.				
2.	To raise student engagement and mastery of TEKS for 5th-8th grade students.	Technology itself is engaging for many students. The incorporation of the ELM model, next year, necessitates the addition of technology devices for research, collaboration activities, and presentation of ideas for local and global viewing. By posting student projects online, blogging, critiquing and provide authentic opportunities for students work, mastery of TEKS should rise as a result of these endeavors.				
3.	Provide dedicated technology devices to students in the classroom.	The Engage Learning Model which will be implemented next year, requires students to research their ideas, find factual information to support their ideas, collaborate with other students and experts in their field, as well as design presentations to present their ideas to their peers and global audiences.				
4.	Provide devices for students to use after school hours.	As ASCISD moves from a "Teaching Model" to a "Learning Model," students must become real world learners and learn to access needed content when needed. By providing technology for students to take home, students will become excited about learning that does not stop when the bell rings. Students should not stop learning just because they do not have the equipment and means to work on assignments at home.				
5.	Provide internet for students to use after school hours.	In an effort to decrease the digital divide for our students, Internet access at home is imperative. In our rural community, affordable and dependable access is nonexistent in certain areas. In addition, our district's 45% economically disadvantaged population does not have the physical means to provide access to their families. Lending wifi devices will make it possible, to ensure the success of each and every student.

## Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 093901

Amendment # (for amendments only):

Part 3: Feedback and Continuous Improvement. Describe the process and procedures your organization currently has in place for monitoring the attainment of goals and objectives. Include a description of how the plan for attaining goals and objectives is adjusted when necessary and how changes are communicated to administrative staff, teachers, students, parents, and members of the community. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Goals and objectives are closely monitored through the use of surveys through Eduphoria, needs assessment committee recommendations, teacher and administrator feedback, community and student feedback, and test scores and grades. The Jr/Sr High school has daily Collaborative Learning Community (CLC) periods and the Elementary has weekly CLC times. Teachers are encouraged to provide feedback about programs, technology, instruction, and other issues during these times. Staff Planning & Improvement Surveys are issued annually to gather feedback from staff members concerning various programs in the district. Students and community members are also surveyed annually on issues ranging from school safety, district technology policies, communications, programs in place and various other areas. Our district technology committee also meets twice a year and has an annual technology planning session where anyone is welcome to come voice opinions and concerns. These concerns are also used in the site-based meetings when making decisions that affect the district. Each campus has a site- based committee that meets several times a year. These committees comprise the district site-based committee, which meets multiple times in the Spring to write a comprehensive needs-assessment for our district. This document is the driving force for making changes that affect all stakeholders in our district. ASCISD also holds two community meetings in the Spring where parents, community members and business leaders are invited to learn about the district and provide feedback.

Part 4: Sustainability and Commitment. Describe any ongoing, existing efforts that are similar or related to the planned project. How will you coordinate efforts to maximize effectiveness of grant funds? How will you ensure that all project participants remain committed to the project's success? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Anderson-Shiro CISD is already committed to creating a learner-centered environment that provides handson, authentic engagement for students with 24/7 access to instructional materials. This commitment is evident
by Vision 2012 created through parent, community, staff and student input. The vision essentially states that
ASCISD embraces innovation and creativity to inspire our students to take ownership of their learning.
Therefore, ASCISD is already moving in the right direction, to equip our students with the skills and tools
necessary to thrive in a digital environment, through the addition of a BYOT program this year, adding iPads
and Chromebooks to our list of available technology, and by providing Google Apps for Education and Project
Share accounts. By spreading out Chromebooks purchased with the Lending Grant to 4 grade levels, we will
be able to add to the personal devices that students are already bringing to school. By encouraging
collaboration in classrooms through Google Apps and other collaborative Web 2.0 tools, we will have
adequate devices to bring Anderson-Shiro to a near 1:1 ratio of students per devices.

Teachers at the Jr/Sr High and Elementary will meet during their CLC times to receive training on the Engage

Teachers at the Jr/Sr High and Elementary will meet during their CLC times to receive training on the Engage Learning Model and specifically how to incorporate technology into their curriculum on a weekly or bi-weekly basis. Teachers are encouraged to provide feedback on specific areas of training needed and issues that may arise through the use of surveys and discussions during CLC times throughout the year.

	ericiana and a second control of the second	3.	
	Teacher Self-	1.	Teacher confidence with integration at high levels
3.	Assessment/Feedback		Teacher satisfaction with devices
		3.	Teachers utilizing technology effectively and consistently with ELM
	Student Learning Objective,	1.	Student growth on Student Learning Objectives in all subject areas
4.	Benchmark/STARR data	2.	Benchmark/STAAR data analysis indicates growth in core areas
MENOCHENHAM	analysis	3.	
	Teacher & Library Lending	1.	Signed lending agreements on file
5.	Reports	2.	Numbers of students requesting devices/wifi cards
		3.	Number of eco. disadvantaged/at risk students requesting devices.

Part 2: Data Collection and Problem Correction. Describe the processes for collecting data that are included in the evaluation design, including program-level data such as program activities and the number of participants served, and student-level academic data, including achievement results and attendance data. How are problems with project delivery to be identified and corrected throughout the project? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Teachers will log computers checked in and out daily on a Google Doc by Follett inventory number with date, students name, project worked on and duration of time checked out. Wireless AT&T devices will be monitored through the library's Follett system and information will be collected on student and duration of time checked-out.

Teachers have access to Eduphoria's HelpDesk feature where they can report Chromebook issues. Teachers also have access to the Technology Director and Digital Learning Specialist at all times via cell phone for immediate troubleshooting issues. For after hours issues, students and parents will have access to a Google Form with which they can submit help tickets and/or provide feedback on the program for review.

Parents, students and teachers will have the opportunity to formally submit feedback twice a year with a Google survey to assess the use of devices in the classroom, check in and check out procedures, and other specific components of the program. Teachers will be evaluated using unannounced walkthroughs at least twice a semester. Students' scores on SLO mastery and Benchmark and STAAR data will be analyzed via Eduphoria's Aware program. Lending reports will be evaluated to see if students are taking full advantage of the lending program or if adjustments need to be made to ensure all students have equitable access to equipment by prioritizing lending based on student need.

#### Schedule #16—Responses to Statutory Requirements

County-district number or vendor ID: 093901

Amendment # (for amendments only):

Statutory Requirement 1: Applicant must describe how it will use funds to implement or enhance a technology lending program to loan students the equipment necessary to access and use electronic instructional materials. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Anderson-Shiro's current lending program exists on a case by case, as needed basis. We have a handful of macbooks and Chromebooks that can be utilized if students have a special project to work on, are homebound, require a special program, etc. Anderson-Shiro is in need of a program that allows students to borrow Internet-accessible equipment. Equitable access to digital resources outside of regular school hours is a necessity to close the digital divide, thus allowing our students to become college and career ready.

In order to meet the two ASCISD goals below, we are submitting an application for the Tech Lending Program to purchase additional Chromebooks and wireless access cards.

- -Provide the technological infrastructure and instructional environment to equip to step into a digital future
- -Provide an environment that cultivates authentic student learning and skills needed for real-world applications.

Based on student data, staff and student surveys, we believe grades 5-8 are the best grade levels to implement devices on a 3:1 ratio.

ASCISD is proposing to purchase enough Dell Chromebooks to provide an approximate 3:1 device/student ratio in these grades at 10 Chromebooks per classroom.

After extensive interviews and reviewing current literature, we have decided to purchase Dell Chromebook 11's. A tentative quote from Dell will allow us to purchase 120 Chromebooks at \$299 each. We have decided not to include management software, but instead to train students and teachers to manage Chromebooks, download apps and extensions, and be proactive in encouraging students to use their equipment responsibly.

Because home internet access is an integral piece of this grant proposal to allow 24/7 Internet access for students, we are proposing to purchase AT&T Unite Mi-Fi devices. A tentative quote from AT&T will allow us to purchase each device at \$0.99/device. AT&T will provide DIR unlimited access at \$37.99/month x 24 months (life of grant) x 15 devices = \$13,691.25

The above numbers were based on student surveys conducted to determine how many students have access to internet at home.

Standard Application System (SAS)

County-district number or vendor ID: 093901

Amendment # (for amendments only):

**TEA Program Requirement 1:** Applicant must describe how the lending program aligns with existing mission and goals of the public school district or open-enrollment charter school. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

ASCISD strives to provide an environment that cultivates authentic student learning and skills needed for real-world applications. Our district relies heavily on utilizing digital tools in each and every classroom to bring these skills to life. With the implementation of the Engage Learning Model in grades 5-8, it is imperative that Anderson-Shiro classrooms be equipped with the tools needed to ensure the success of all students. By allowing students in these grades to have dedicated devices in their classroom, students and teachers will be able to rely on these devices daily to meet their needs. Students will need to rely heavily on digital devices for collaboration, planning, research, and creation of digital products and presentations. Any work that needs to be done outside of class or collaboration at home or after school hours will be possible by allowing students to check-out Chromebooks and Internet devices from their teachers.

# Schedule #17—Responses to TEA Program Requirements (cont.)

County-district number or vendor ID: 093901

Amendment # (for amendments only):

**TEA Program Requirement 5:** Applicant must describe professional development for teachers in the use of electronic instructional material that has already occurred or will occur within the first three months of the grant period (i.e., October 1, 2014-December 31, 2014) to be prepared for the grant implementation. Note: Any professional development that is provided within the grant period must be provided with non-grant funds. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Professional Development is key to ensuring the success of any instructional initiative, especially with the use of technology devices. Each fall, teachers attend a Professional Development Conference in place of regular in-service. Teachers have the option of choosing between various technology sessions which comprise a large portion of the offered sessions. These sessions typically include the following: Google Apps, SMART Notebook, Project Share, and various Web 2.0 tools. During this school year our technology department implemented a series of trainings called "Technology Rocks, Seriously!" This program offered incentives for end of the year prizes and drawings for attending teachers. After school sessions included: All in Learning, Twitter in the Classroom, Discovery Education, Eduphoria Aware, Moby Max, SMART Board, iMovie, Socrative, Kahoot!, Splashtop, Web 2.0 Tools, Project Share, and Skype. Teachers will receive ELM training on July 28 & 29th this summer. This training will focus specifically on the set up and design of student problem-based learning, and will focus on the importance of integration of digital resources on a daily basis. Teachers will receive Chromebook/ GAFE training during August In-service. This training will consist of utilizing Drive and Sites for LMS and course content, using GAFE Drive for file storage, integration of Chromebooks into curriculum, management strategies, and mastery of digital citizenship for all teachers. Training during the school year will consist of bi-monthly Technology Collaborative Learning Community meetings, weekly after school sessions, and daily availability of Technology staff for in class support. Technology staff will be available for classroom "workshop" sessions to train students and staff in usage of various web 2.0 tools, Google Apps, etc.

**TEA Program Requirement 6:** Applicant must describe how infrastructure is adequate to support students' anticipated use of devices provided through the grant at its participating campus(es). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Our district's infrastructure is ready to handle the wireless capacity of the addition of more devices. Due to our board's district goals of ensuring that we are meeting the needs of our growing student population, each student in our district was in a new or newly remodeled classroom by 2010. Each classroom in our district is equipped with a dedicated ProCurve MultiService Access point and has access to a 50 MB Internet connection. This connection provides ample bandwidth for our district, however ASCISD is continuously looking ahead for options to continue to increase this bandwidth in order to meet the needs of all staff and students.

## Schedule #17—Responses to TEA Program Requirements (cont.)

County-district number or vendor ID: 093901

Amendment # (for amendments only):

**TEA Program Requirement 9:** Applicant must describe how the grant will be administered on participating campus(es), including a description of how the check-out and check-in process will operate, who will be in charge of the check-out process, especially in cases of competing need, and the process that will be used to maintain the technology lending equipment in proper working condition. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

At the Jr/Sr High Campus, Chromebooks will be logged and labeled in our Follett Library System database. Each of our junior high teachers at the Jr/Sr High School and 5th grade teachers at the Elementary school will receive 10 Chromebooks and 10 protective cases to keep in their classroom. A Google doc will be created and shared with each teacher. When a student needs to check out a Chromebook for class work, Internet research or other educational project, students will request to check out a Chromebook from their teacher. Teachers will indicate on the Google Doc the student's name, date, local number assigned to computer, current condition of computer and project or assignment on which student will be working. If student is in need of a wireless Internet device, teachers will submit an Eduphoria form on behalf of student. This form will be sent to the campus librarian. This form will also include the student's name, date, length of time student needs the device and the assignment/project. After school, the student will pick up the Chromebook from their teacher and the Internet device from the librarian. If there are more request for Chromebooks and Internet devices than are available, priority will be given to students who are considered economically disadvantaged.

The next morning, Chromebooks are due back to teachers before the beginning of school so that the teachers have the Chromebooks available for students in their class during the school day. Teachers will indicate on their Google Doc, the date the computer is returned and the condition upon return. Internet devices are due back by their due date. Students can check out Internet devices up to a week at a time depending on student need and teacher request.

Chromebooks will be assessed weekly, updated as needed and repaired if necessary by technology staff to ensure all are in working condition. Internet devices will be inspected upon return by the librarian and recommendations will be made to technology staff if repairs are necessary.

------------------------	-----------------

Standard Application System (SAS)

# Schedule #17—Responses to TEA Program Requirements (cont.)

County-district number or vendor ID: 093901

Amendment # (for amendments only):

**TEA Program Requirement 10:** Applicant must describe how it will account for the technology lending equipment according to local policy, including providing insurance if appropriate. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

After purchase, 90 of the Chromebooks will be inventoried at the Jr/Sr High Campus and 30 will be inventoried at the Elementary Campus. Chromebooks will be labeled with the district and campus name, serial numbers will be logged and Chromebooks will be labeled with a local number. This information will be logged in our online Follett Library System. At the Jr/Sr High school, the 90 Chromebooks will be scanned and checked out to each 6th-8th core subject teacher. Ten wireless Mi-Fi devices will be inventoried in this same manner and will be kept at the Jr/Sr High Library to be checked out by the librarian to students on an individual basis. At the Elementary school, 30 Chromebooks will be inventoried in a similar manner by the elementary librarian and checked out to 5th grade teachers. Five of the Mi-Fi devices will be kept in the library and be made available to 5th grade students for check out. Google Docs will be created for each teacher by technology staff and shared with them. Teachers will use this document to keep track of each Chromebook. By giving teachers local control of "their" Chromebooks, teachers will be able to check out Chromebooks to students based on student need. Teachers will submit a form to the librarian to give students permission to check out a mi-fi device as needed. In this manner, library and technology staff will be able to account for the whereabouts of each device at any given time. The Chrome management console will be added to each device to assist with tracking, updating, and general management of devices. ASCISD has decided that we will self-insure all devices instead of purchasing insurance from an external source.

**TEA Program Requirement 11:** Applicants must describe the development and implementation of a *Technology Lending Agreement* to be signed by parents or guardians of the students and by the student. The agreement must address responsible use and care of the equipment, responsible use of the district's digital resources, and responsible use of the Internet. The agreement may incorporate an existing *Responsible Use Policy* by reference. The Technology Lending Agreement must verify that students receiving Internet access at home have a demonstrated grade level mastery of the Digital Citizenship strand of the Technology Applications Texas Essential Knowledge and Skills (TEKS). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

ASCISD will add a separate Technology Lending Agreement form to our current Responsible Use Policy. The Technology Lending Agreement will outline student and parent responsibilities associated with checking out district owned Chromebooks and Internet devices. The form will be sent home at the beginning of the school year and will outline the check out and check in procedures, expectations on the care and treatment of the device while in the student's possession and expectations for responsible use and online safety. In each classroom, students will be required to complete grade appropriate lessons on Internet safety and digital citizenship. When students have completed the lessons and performed successfully on a district technology safety assessment that meets or exceeds the Digital Citizenship strand of the Technology Application TEKS, then students will be allowed to use Chromebooks at home as well as check out Chromebooks and Internet devices for home use.
